W-8306

The Datamax W-Class Family of printers are designed to address the specialized printing needs of applications where wide label formats are industry-standard requirements. The W-Class product family consists of the W-6208, the W-6308, and the W-8306. W-Class wide-format label printing products are the most advanced of their kind in the marketplace today.

The W-Class features more standard memory, a fast processor, and the scalability required in today's connected workplace. The W-Class utilizes the acclaimed electronics features of the industry-leading Datamax I-Class product line, including a card cage with the option to add accessories anytime and on-site. W-Class printers are constructed to endure the most intense industrial printing environments, with an all-metal chassis and heavy-duty metal exterior designed to protect the value of your technology investment.

All of the W-Class printers are equipped with an adjustable-contrast LCD front-panel display that allows operators to select media, speed and temperature settings as well as network connectivity options.

The W-Class Family of printers are ideal for mission critical compliance labeling applications such as automotive, chemical, transportation and paper-processing industries requiring ODETTE, EAN-128 and AIAG labels. It is equipped with a 32-bit, 90-MHz, true multi-tasking processor and 16MB of standard memory, which provides accelerated first-label output and variable-data printing.

When it comes to reliability, ease of use, maintenance, and high performance, there is just one choice the Datamax W-Class Family of printers. They are the most affordable high – performance, heavy duty, mission critical, wide web thermal printers in today's market.
